TESTIMONIAL

We were presented with an excellent and lucrative investment opportunity in the education sector by ICREA under the dynamic leadership of Capt. Sunil Saraf. The opportunity was in alignment with our strategy, vision and investment objectives.

The school investment opportunity in Dubai, United Arab Emirates, was a multi-party Propco transaction which required creative structuring, negotiating skills and patience which ICREA exhibited and they managed the whole process very well in a positive manner.

Through their sectorial experience of the education sector, real estate, expertise in financing, understanding risks and structuring abilities, ICREA was instrumental in ensuring that the transaction was executed smoothly as well as successfully by contributing creative inputs, overcoming the challenges and managing the whole process and life cycle of the deal with high standards of overall professionalism. Putting client interest first and ensuring client success are their watchwords which they have visibly demonstrated in our dealings with them.

Our experience with ICREA was very enriching indeed. They are not only experts in their field and capable of providing customized services based on client needs but also very reliable with lot of integrity. It is this which has come to the fore in our proclivity to strongly recommend ICREA. We certainly look forward to working with them in the future. Wishing Capt. Saraf and his team at ICREA every success in their future endeavors.
